WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Wet and windy weather is expected across the region through today with periods of heavy snowfall in the mountains.
 - A brief period of dry weather is expected before precipitation chances return on the weekend. A pattern change shifting to dry weather is expected for next week.
- Unstable conditions behind the front will bring a threat for locally heavy downpours, isolated thunderstorms and periods of gusty winds through Thursday. The offshore storm has also generated a huge swell that will pound the beaches on Thursday.
- Periods of rain will continue this weekend
- A third and final storm entered Central California today. Periods of heavy rain, mountain snow, strong winds will last through today.
 - Fog will be possible in the San Joaquin Valley starting Friday morning, and is possible Saturday and Sunday morning.
 - A weak disturbance will impact the area Sunday, followed by an extended period of dry weather.

SOUTHERN CALIFORNIA

- The final storm system in the series will bring moderate to heavy rain to the area through Thursday. It will begin to dry out Friday and continue through early next week.
 - Heaviest rainfall will be in the mountains and westward in Orange, Riverside, and San Bernardino Counties.
 - A Flash Flood Watch is in effect for these areas.
 - Street flooding is likely and burn scar debris flows are possible.
 - It will also bring strong winds to the mountains and deserts and high mountain snow.
 - The storm departs Friday and high pressure will bring fair weather with areas of offshore winds this weekend and next week.
- Steadier rain is expected across the western portion of San Luis Obispo / Santa Barbara Counties into Thursday.
